Events Around the State

- Earlier this month, Lt. Governor Burt Jones and staff visited Kia Georgia, the only Kia manufacturing plant in the United States. The plant is located on 2,200 acres in West Point, Georgia and comes with a total investment of \$2.8 Billion. Lt. Governor Burt Jones was joined by Governor Brian Kemp, First Lady Marty Kemp and other local and state leaders.

“I am always grateful for an opportunity to spend time in west Georgia, especially to see Kia’s continued investment in both West Point and the state as a whole. Visiting Kia Georgia reinforced my appreciation for the hard work that has kept Georgia the number one state in which to do business. I am so proud that Kia calls Georgia home.”

- Staff members traveled around the state to meet with constituents, hear about their concerns and also present proclamations to outstanding organizations and Georgia citizens who are making a difference from the north Georgia mountains to the coast.
